

## **RIDER 10-2**

### **RESIDENTIAL ELECTRIC THERMAL STORAGE SERVICE**

#### **I. AVAILABILITY**

This rider is available to customers of Northeastern REMC (Northeastern) who are eligible for and receive service under Schedule 10-1 (Residential Service). This rider is for electric thermal storage (ETS) systems capable of storing energy during off-peak hours for use during on-peak hours. The ETS system must be sub-metered and subject to control by a load management device. All other electric energy used by the customer shall be purchased under Rate Schedule 10-1.

#### **II. CHARACTER OF SERVICE**

Service rendered under this rider shall be alternating current, sixty (60) hertz, single-phase, three wire at approximately 120/240 volts.

#### **III. MONTHLY CHARGE**

The following rate will be applicable to the sub-metered ETS system usage.

For all kWh used per month	\$0.03465 per kWh
----------------------------	-------------------

The usage billed under this rider will be subtracted from the usage recorded by the customer's main service meter and the remainder billed under Schedule 10-1.

#### **IV. POWER COST ADJUSTMENT**

Refer to Appendix A.

#### **V. FUEL COST ADJUSTMENT**

Refer to Appendix FC.

#### **VI. NON-FUEL COST ADJUSTMENT**

Refer to Appendix FC.

#### **VII. SCR COST ADJUSTMENT**

Refer to Appendix FC.

#### **VIII. OTHER TERMS AND CONDITIONS**

To properly monitor the performance of devices and equipment served under this rider, Northeastern reserves the right to inspect said devices and equipment and to install, maintain, operate and remove any metering, load management, and/or test equipment required to administer this rider.

All other Conditions of Service specified in Schedule 10-1 are applicable under this rider.
